COMMERCIAL COMPOSITION

Further expanding these options, the department offers concentrations in the areas of vocal studies, piano studies, jazz studies, commercial composition, and church music. Music students pursue courses of study that include a judicious mixture of music theory, music history, and individual and ensemble music performances while emphasizing practical applications and exposure to the technology and methodology relevant to the various concentrations. The Department of Music also offers a minor in each music concentration for musically talented students pursuing other disciplines.

Commercial Composition is the act of composing/arranging music for different contemporary genres (i.e., R and B, Gospel, Jazz, Country, Hip Hop, Pop, etc.) We have designed our program to give students the tools needed to pursue a future in writing, producing and recording music for many types of media. Students will acquire the aesthetic and technical skills required for work in a studio environment, as well as explore composing music for many different areas in the current music industry. You will work with a diverse community of musicians, faculty, and industry professionals, with access to our state of the art technology and recording facilities, combining your bachelor's degree studies with real world experience.

Student Learning Outcomes

Graduates with a Concentration in Commercial Composition will be able to:

- Compose, arrange, produce and record music within specific music industry guidelines.
- Demonstrate their proficiency in basic music technology and recording using ProTools System, Logic Pro X and other Digital Audio Workstations.
- 3. Score for basic orchestral and vocal ensembles.
- Demonstrate a basic command of compositional process in both prepared and contemporary formats.
- 5. Apply recording techniques to real world music environments.
