Hours

# **PSYCHOLOGY, B.A.**

Credits: 122 CIP Code: 420101

### **Program Description**

The Bachelor of Arts Degree in Psychology program is designed to train students to understand human behavior. Psychology, as a field of knowledge, is grounded in both the biological and social sciences. The program courses aid in developing students' abilities to think critically, to become independent investigators, and to impart a philosophy of appreciation for a developing and maturing science based on well-grounded experimental evidence. The faculty advisors are available to suggest elective courses that will provide a strong foundation for career goals.

## **Admissions Requirements**

Applicants to the Bachelor of Arts and the Bachelor of Science Degrees in Psychology must meet the General Admissions Requirements as published in this Catalog.

## **Student Learning Outcomes**

Graduates of the Bachelor of Arts in Psychology Program will be able to:

- 1. Discuss basic theories and application of psychological concepts in the field of mental health.
- Describe experimentation and research methods utilized in the fields of social science.
- 3. Identify physiological basis of behavior and diagnosis and treatment of the major psychological disorders.
- Explain the aspects of the environment and culture which influence human behavior and relationship dynamics in oral and written forms.
- Apply theoretical approaches of psychology and its interdisciplinary subspecialties to conduct research on social and organizational development, learning and behavior of individuals in groups and organizations.

### **Degree Requirements**

In addition to the General Degree Requirements as published in this Catalog, students pursuing the Bachelor of Arts Degree in Psychology must complete all required courses in Psychology and courses which are being counted as Psychology Electives with minimum final grades of "C" or better.
